

KINGMAN AREA USERS ASSOCIATION 2021-2022 ROAD COMMITTEE REPORT

Dustin Lewis – KAUA Road Committee Chairman February 22, 2023

COMMITTEE MEMBERS ON RECORD:

Dustin Lewis-Lewis Equipment–Chairman, Members: Ken McLaughlin-Wecom, Justin Brown and Farron Eckelbarger-Arizona Broadcast Engineering..

This report spans from April 26, 2022 to February 21, 2023

KAUA Road Committee Report

Road conditions have not been visited since fall by the road committee chair. At that time we had finished the installation of culverts and erosion control on Hayden Peak. (culverts were purchased by BLM and Lewis provided the trucking from the manufacture) There are culverts being stored at Lewis's facility as all were not installed due to budget restraints.

Gold Road erosion repair were completed and had funds left in the maintenance budget.

Gets Peak had extensive damage with the small amount in the 2022 budget. It was decided to perform the necessary work at that time to save on mobilization, availability of equipment, and the work that needed to be performed. Knowing that we would have to defer payments until approval at the 2023 meeting and then funds arriving. The full amount available was paid during 2022 and there is a remaining balance carrying in to 2023.

This is projected as a long term improvement annually (and not just a maintenance) to better all tower access roads in the three locations.

Thank You

Dustin S. Lewis
